President's report

The Gabriola Community Health Center

- In 2006 - A vision for better health care on Gabriola began to emerge as residents looked for ways to overcome a significant lack of health care facilities and services as well as a shortage of doctors.
- In 2008 - Gabriolans gave the Gabriola Health Care Foundation (“GHCF”) a mandate to develop a community owned urgent treatment facility, a primary care medical clinic and to promote health care programs.
- In 2012 - With incredible determination, fundraising and volunteering, the community completed construction and opened the doors to the Gabriola Community Health Centre.
- Today the Health Centre is in full operation with the GHCF, on behalf of Gabriolans, serving as the owner, landlord and facility manager.

- With support from community partners the Gabriola Chapter has worked collaboratively with Island Health bringing:

- Most administration and maintenance is currently done by volunteers
- A Committee of Board is reviewing the long term management options, liability and financial sustainability of the UTF
- A Governance Committee has been struck to review the Foundation's policies and procedures
- Guidelines for Infection Prevention and Control have been developed and implemented in 2015

President's report

Gabriola is well served!

- Without question the primary health care services on Gabriola have come a long way since 2006.
- However, without the support, generosity, expertise and determination of our residents, the Gabriola Community Health Centre and the many services we now appreciate would not be here today.
- The Gabriola Health Care Foundation is also very grateful to our doctors who are willing to be on call at any hour to treat patients requiring urgent medical care in the UTF. It is only with the dedication and caring of these doctors and with the support of their families that we have the comfort of knowing this excellent service is available to all residents and visitors to Gabriola.
- Thank you all!

Facility Management Committee

It is important to note that:

- Volunteers perform much of the facility maintenance and administrative services which helps to keep our operating costs low.
- Volunteerism may dwindle and the potential need for funding to cover maintenance and management services will need to be considered.
- To assist future management:
 - Operation and maintenance budgets are being upgraded
 - A detailed planning and maintenance schedule is being developed
 - Equipment manuals are being further developed
- We thank the donors who continue to support the Health Centre and the volunteers who maintain the facility and grounds in such great shape.
